

Ecosystem Survey of *Delphinus* species
07 September – 09 December 2009

Chief Scientist: Susan J. Chivers, Ph.D.

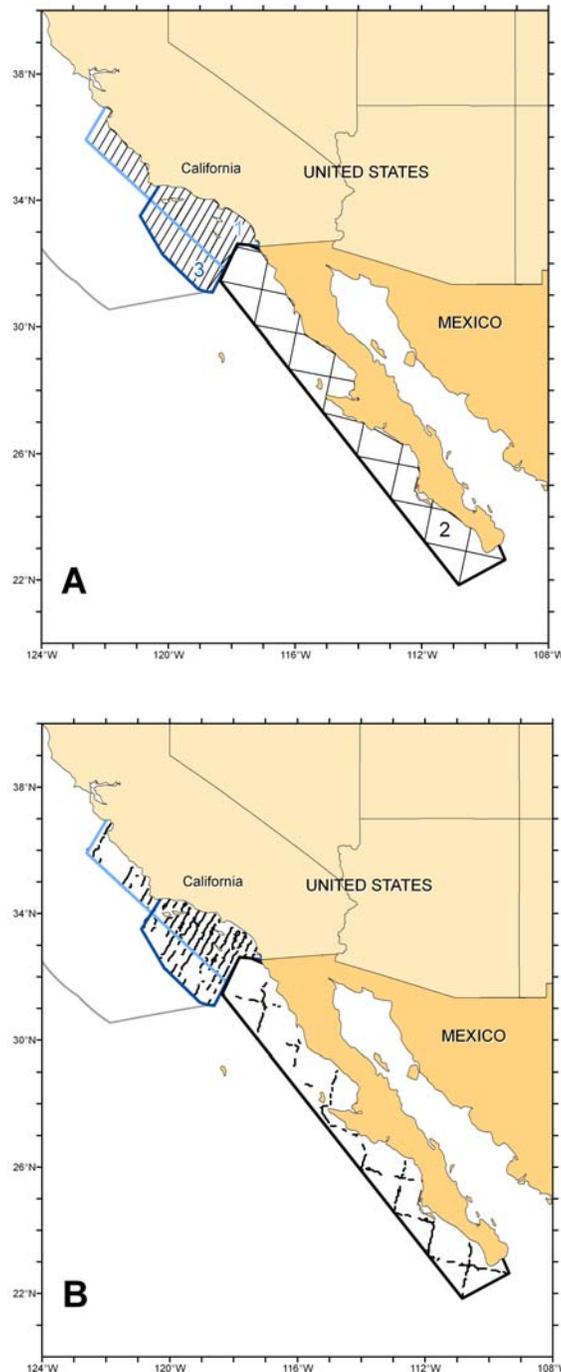

Figure 1. The survey effort planned (A) and the standard effort completed (B) during the 2009 *Delphinus* survey aboard the NOAA Ship *McArthur II* are shown. Leg 1 surveyed the inshore rectangle off California, USA (light blue border); Leg 2 surveyed offshore of Baja California, Mexico (black border); and Leg 3 surveyed the Southern California Bight, off California, USA, including the inshore area covered on Leg 1 (dark blue border). The USA exclusive economic zone is shown for reference with a light gray line.
